A ball with a difference.

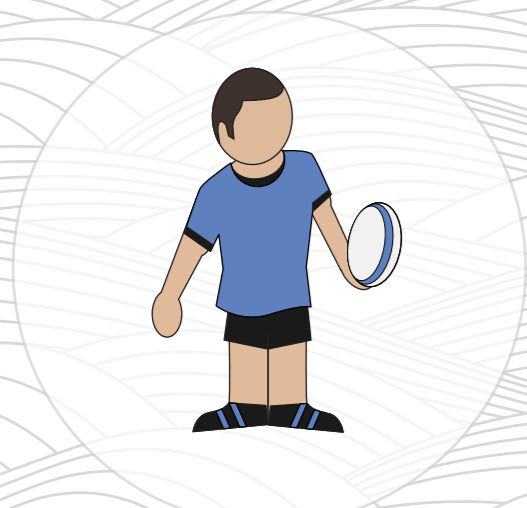

Challenge the Legends

So you think you can play ball? Take it to the hoop with NBA star Luc Longley. The first Australian to play in the NBA, Luc played for eleven seasons, including three championships with the Chicago Bulls.

Footy armchair greats, stand up to Darren Glass. The Eagles skipper, winner of the club's 2009 best and fairest award, and veteran of 196 games looks forward to your best shot.

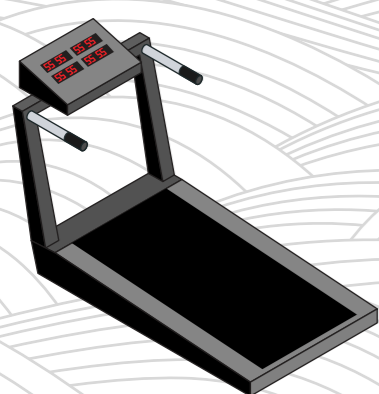

Hey hotshot, swing your hips against former Wallaby and current Western Force star Scott Staniforth or four time Canadian Olympic bobsledder Chris Lori.

Golfers, head down and wrists locked as you take on cricket legend Justin Langer. Few have worn the baggy green cap with greater pride. Justin played 105 test matches scoring 7,696 runs including 23 test centuries.

Heartbeat Challenge

Four teams of national athletes will compete in a paddle-cycle-run competition, coached by WA sports legends Greg Mickle and Kylie Wheeler. Watch the competitors heartbeat rise as you support your favourite team and mingle with Greg and Kylie.

The McComb Foundation

The McComb Foundation was established in 1999 by Ms Fiona Wood FRACS, Plastic & Reconstructive Surgeon and Marie Stoner, Scientist.

The aim of the Foundation is to advance the research and development of innovative tissue engineering technologies. The vision is to improve the outcome through all these areas, improving patient quality of life and return to pre-injury condition.

The McComb Foundation Inc shall use all of its charitable resources to ensure: "The quality of the scar must be worth the pain of survival."
